Page 1 - Line 4: After the word: initiatives add the following: (between 1950 and 1992).	The dates are already mentioned in the paragraph so the comment was not included.
Page 2 - Paragraph 1 - Line 4: Change the words: Nevada Test Site to: NTS.	Completed.
Page 2 - Paragraph 2 - Line 2: Change the end of the sentence to read: news releases, exhibits, the CAB Roadshow and CAB public meetings.	Since the CAB has not been mentioned at this point in the brochure this comment was not included.
Page 2 - Paragraph 2 - Line 5: Change number of citizen volunteers to 15-20.	Since the number of CAB members fluctuates, the number of members was omitted.
Page 2 - Paragraph 2 - Line 6: Add to the end of the paragraph: The CAB meets monthly and the public is invited. (or semi-monthly if that schedule remains)	Changed to read, "More information on the CAB, including meeting details, is located at http://www.ntscab.com ."
Change the font on the headings. It is extremely difficult to read.	Completed.
Page 2- Paragraph 1 - Reverse the order of the first two sentences in this paragraph.	Paragraph was rewritten and comment was incorporated.
Page 2 - Paragraph 1 - Line 5: Make a bulleted list of: <input type="checkbox"/> Underground Test Area, <input type="checkbox"/> Soils, <input type="checkbox"/> Industrial Sites, <input type="checkbox"/> Offsites	This section was omitted. Change could not be made.
Page 3 - Paragraph 2 - State what happens if groundwater contamination is found. Also make sure it is noted that this is an area where the CAB is actively involved.	Due to spacing issues and content, comments could not be incorporated.
Page 3 - Paragraph 3 - Line 3: Remove the word: resides and replace with the word: remains.	Completed.
Page 4 - Paragraph 2 - The portion of the paragraph that speaks about management of transportation is confusing. It leads one to think that program activities include more than they do. It needs to be rewritten. Also, the mention of coordination of rural county emergency response efforts gives the wrong impression. This reference makes a reader think that program activities include helping local municipalities with their emergency response efforts. It needs to be rewritten.	Completed.
Page 5 - Paragraph 1 - Line 2: Change Environmental Protection Agency to: EPA.	Section omitted from brochure. Comment could not be included.
Page 5 - Paragraph 4 - Add this sentence to the end of the paragraph:	Completed.

<p>Page 6 - Underline and bold the following: Line 2: The Radioactive Waste Acceptance Program; Line 4: Risk Assessments; Line 12: The Closure Program</p>	<p>Section omitted from brochure. Comment could not be included.</p>
<p>Page 6 – Line 7 - change the sentence to read: Continuous monitoring of air, groundwater, and soil serves as an early detection system Our overall recommendation in relation to this handout is to change the graphics. The graphics make it very hard to read throughout, and they distort the photos. All photos should be replaced and include captions.</p>	<p>Section omitted from brochure. Comment could not be included.</p>

Transuranic Waste...at the Nevada Test Site

Add Glossary	Completed.
Update amounts and add specific date for completion	Completed.
Move "Waste Characterization" to the front page and "Waste Handling and Storage" to the second page.	Completed.
Add " <i>permanently</i> " managed.	Completed.

Under "Waste Characterization," change second sentence to read, " <i>is required,</i> " instead of " <i>must be accomplished.</i> "	Completed.
Next to the last sentence should read, " <i>Responsibility of Transuranic waste shipments transfers to the WIPP personnel once...</i> "	Sentence now reads, "Responsibility for transuranic waste shipments from the Nevada Test Site to any off-site location lies with WIPP personnel."

Low-Level Waste...at the Nevada Test Site

CAB Comment	Comment Resolution

Change " <i>How Do We Ensure Safe Disposal?</i> " to " <i>How does DOE Ensure Safe Disposal Requirements?</i> " and add a lead-in, to state that the DOE and NDEP make scheduled and unscheduled visual inspections at waste generator sites.	Sub-title was changed from a question to a statement. Sub-title now reads, "Safe Disposal Requirements"

Transporting Low-Level and Mixed Low-Level Waste to the Nevada Test Site

CAB Comment	Comment Resolution
<p>The first paragraph with bullet points should be changed to read: Safety is the first priority of the Nevada Test Site (NTS) when transporting waste to the NTS.</p>	<p>First paragraph now reads, "Safety is the first priority for the Environmental Management mission at the U.S. Department of Energy (DOE) National Nuclear Security Administration Nevada Site Office. In fact, this commitment to safety is integrated at DOE sites that generate low-level and mixed low-level waste that is permanently disposed at the Nevada Test Site (NTS)."</p>
<p>The NTS is committed to considering the concerns of neighboring areas, which are impacted by the transport of low-level and mixed low-level waste shipments to the site. These concerns include:</p> <ul style="list-style-type: none"> • Avoiding heavily populated/congested areas in the State of Nevada • Avoiding Hoover Dam (I-40, US-93) and Davis Dam (AZ-68, NV-163) • Using the Nevada Site Office identified preferred routes (see map on reverse side) • Completing the driver routing questionnaire • Avoiding the Las Vegas Beltway (I-215) 	<p>Text is now located under "Routing Preferences."</p> <p>Text now reads, "The Nevada Site Office makes every effort to consider the concerns of stakeholders in areas neighboring the NTS. The NTS Waste Acceptance Criteria addresses waste transportation and forbids low-level and mixed low-level waste shipments across Hoover Dam and through the Las Vegas metropolitan area.</p> <p>In combination with these requirements, the Nevada Site Office has identified preferred routes (see map on reverse side) and advises generators to conform to the following guidelines:</p> <ul style="list-style-type: none"> • Avoid heavily populated/congested areas in the state of Nevada (including the Las Vegas Beltway, I-215) • Avoid Davis Dam (AZ-68 and NV-163) • Use the northern route, I-80 (see map on reverse) during summer months (May - October) • Use the southern routes during the winter months (November - April), but divide shipments between CA-127 and NV-160 (see map on reverse) • Direct carrier drivers to complete the mandatory driver questionnaire"
<p>The second paragraph should read as follows: The NTS recognizes that although generators cannot direct the specific routes taken by carriers, they can suggest preferred routes. The Nevada Site Office may consider</p>	<p>Text now reads, "The Nevada Site Office may suspend generator shipments if waste is not transported in compliance with the identified requirements and guidelines."</p>

<p>suspension of a generator's shipments if waste is transported through the above-mentioned sensitive areas.</p>	
<p>With regard to the fourth paragraph, the Committee agreed that a legend would be created for the map with symbols that designate the different routes, for those who will not be viewing a colored copy of the fact sheet. The symbols will be a triangle, a square, and a circle. The verbiage in this paragraph should read as follows: During summer months (May-October) carriers are directed to use the northern routes. See map on the reverse side for Interstate-80 highlighted in blue, symbol is a circle. The required alternative during winter months (November-April) is to divide shipments between CA-127 (symbol is a triangle), and NV-160 (symbol is a square). See map on the reverse side for these routes; both are depicted in pink colors.</p>	<p>Due to design and spacing concerns the symbols/colors that are used are a purple diamond, a green circle, and a blue heavy line.</p> <p>The paragraph was removed completely because a legend was added. The legend conveys what the recommended text was trying to accomplish.</p>
<p>It was also noted that the background was too busy and the fact sheet was difficult to read.</p>	<p>Incorporated new design. Originally was a three fold brochure and document is now a two-sided fact sheet.</p>

Planning and Budgeting

Regulatory Requirements and Agreements

CAB Comment	Comment Resolution
The CAB submitted a word for word rewrite. The recommendation given to DOE was to replace all existing text with the CAB rewrite.	The CAB verbiage was reviewed by DOE staff and the majority of it was implemented. Since the CAB recommendation covered the entire fact sheet, the comment resolution is to see the final revised fact sheet (which is available on the CAB website).

Environmental Restoration

CAB Comment	Comment Resolution
Page 1 - Column 1 – Paragraph 3 – Line 8 After the words: five states, insert: (see list on page 3)	The Offsite locations are now managed under the Office of Legacy Management and all reference to them has been removed from this fact sheet.
Page 2 - Column 1 – Paragraph 1 – End of Paragraph Delete the last word: activities, and insert: through attending CAB meetings and other avenues.	Due to spacing issues the revised text reads, “The Federal Facility Agreement and Consent Order is an agreement among the Nevada Site Office, the State of Nevada, and the U.S. Department of Defense. It is the dominant regulatory driver for Nevada Site Office Environmental Restoration Project activities and establishes a framework for identifying, prioritizing, investigating, remediating, and monitoring the contaminated sites covered by the agreement.”
Page 2 - Column 2 – Paragraph 1 – Last bulleted item Delete the words: closure requirements, and insert: appropriate state and Federal closure requirements.	Due to spacing issues, this paragraph was removed from the fact sheet.
Page 2 - Column 2 – Paragraph 3 - Break out the four related projects into a bulleted list.	Due to spacing issues, this paragraph was absorbed within other paragraphs. Therefore, the comment could not be completed.
Page 3 - Column 1 – Paragraph 3 - Remove this paragraph with reference to Offsite Projects because they are no longer active.	Completed.
Page 3 - Column 2 – Paragraph 1 - Check the next to last paragraph for accuracy in reference to contamination by uranium and/or plutonium oxides.	Statement was accurate. However, due to spacing issues the sentence was removed from the revised fact sheet.
Page 4 - Paragraph 1 – Bullet 3 - Define what a stakeholder is and explain how they can get placed on the mailing list.	This information was duplicated in other fact sheets and it was determined it was not necessary in this fact sheet. The paragraph was removed.
