Nevada Site Office Environmental Management

# EM NEWS FLASH

## Community Advisory Board 2008 Membership Recruitment Drive Underway

The Community Advisory Board for Nevada Test Site Programs (CAB), a federally chartered U.S. Department of Energy (DOE) advisory board made up of citizen volunteers from rural and urban communities in Southern Nevada, is currently recruiting members.

CAB members meet bi-monthly to study and discuss environmental management activities that take place at the Nevada Test Site and provide recommendations to the Nevada Site Office Environmental Management Program. The CAB is chartered to review and provide feedback on radioactive waste management, disposal, and transportation activities, the effects of historic nuclear testing on the groundwater at the Nevada Test Site, and other environmental remediation activities. However, the Board does not address issues related to DOE's Yucca Mountain Project.

If you are interested in working with your neighbors to make a difference in Nevada's future, please consider applying for membership. No related training or experience is required.

Applications are available at [www.ntscab.com](http://www.ntscab.com) or by calling 702-657-9088. There are a variety of ways to submit your completed application: e-mail to [ntscab@nv.doe.gov](mailto:ntscab@nv.doe.gov), fax to 702-295-5300, or mail to Community Advisory Board, 232 Energy Way, Mail Stop 505, North Las Vegas, NV 89030.

For further information on the CAB, contact the CAB Office at 702-657-9088.

---

You have received this announcement as a member of the U.S. Department of Energy National Nuclear Security Administration Nevada Site Office Environmental Management distribution list. If you would like to be removed from the list, please call 702-295-3521 or e-mail your request to [envmgt@nv.doe.gov](mailto:envmgt@nv.doe.gov).
